Secretary to the Government of His Highness the Maharaja of Mysore,
Local Self-Govt. *Department, Bangalore*

Subject:—

Sir,

I have the honour to state that during his tour in March and April 1937 in the district, the Dewan was pleased to observe at Bhadravathi, that permission should not be given to construct the house, the basement of which has been put up close to the bridge on the right bank of the river and that the site should be acquired by the Municipality (vide subject No. 49 of the Tour Notes under 'Bhadravathi Town').

2) The question was first placed before the Municipal Council on 15-4-1937 when they agreed to the site being acquired. Necessary proposals were also sent up and the preliminary notification under the Land Acquisition Act published. Subsequently on 4-6-1938, the Council resolved that the acquisition proceedings be withdrawn as the cost of acquisition would be very heavy. Proposals have therefore been received for dropping the acquisition proceedings.

While

3) While submitting the records, the Sub Division Officer - and the Ex-officio President of the Municipality recommends that the party might be permitted to construct the building - as the acquisition of the site on which considerable amount has already been spent by the party, would mean a heavy burden. He adds that the building, if permitted to come up, would improve the area to a considerable extent

4) The Executive Engineer who was consulted has stated that the existence of the building would not endanger the bridge - and that as the Public Works Department has no funds, the Municipality might acquire the site

5) The request of the Bhadravathi Municipal Council for a debenture loan of Rs 50,000/- has since been refused by Government on account of its present poor financial condition It may not therefore be possible for the council to acquire the site at such a considerable cost In these circumstances, it seems to me that the party may be permitted to put up a decent building on the site I request the favour of early orders on the matter The connected records are enclosed
